We want you to try and test the O-Cedar Polish. Clean and polish every floor in your house as a fact! If it is not satisfactory to every person and if it does not prove its own worth to you we will refund your money without a question.

If you were going to take a trip to San Francisco, with limited time and unlimited money at your disposal, and if you wished to see the larger cities in every state in the Union, just imagine what would be the best way to travel.

There is something that the Caller is not going to tell you, for that is the point of the TRAVELGAME. You must make the passes for yourself. You can have a good deal of fun making the map of your route. But just like the players of a trip in the little stars twinkle, and there's nary a trace of a bite or sting.

How many stars are there of over 15,000 population in Texas? How many more than 25,000 in Montana?

These are some of the questions that are answered on the chart which you receive free of charge at the Caller office.

Practical prizes will be awarded to those who play the TRAVELGAME best. The first prize is a trip to the famous Pacific and California Expositions, made via the Great Lakes, and finally returning via San Lake, Lake Superior. In addition to the above will receive the second place in subscription.

The second and third prizes are each trip to the Exposition, with a round trip, the amount paid on entrance.

All other 100 contestants prizes will be awarded, \$10 to be won for placing the most interesting game ever published in a newspaper.

The TRAVELGAME is very simple. In another part of this issue you will find a copy and answer sheet version of the rule of the chart to insure a network of lines. Those who are interested know that nearly everyone starts with which players are in line.

Players may start at any city shown on the chart, except the players must start the other to be ready for Corpus Christi. The player is to follow the line of the chart winding about in every state in the Union, and finally returning to the starting point.

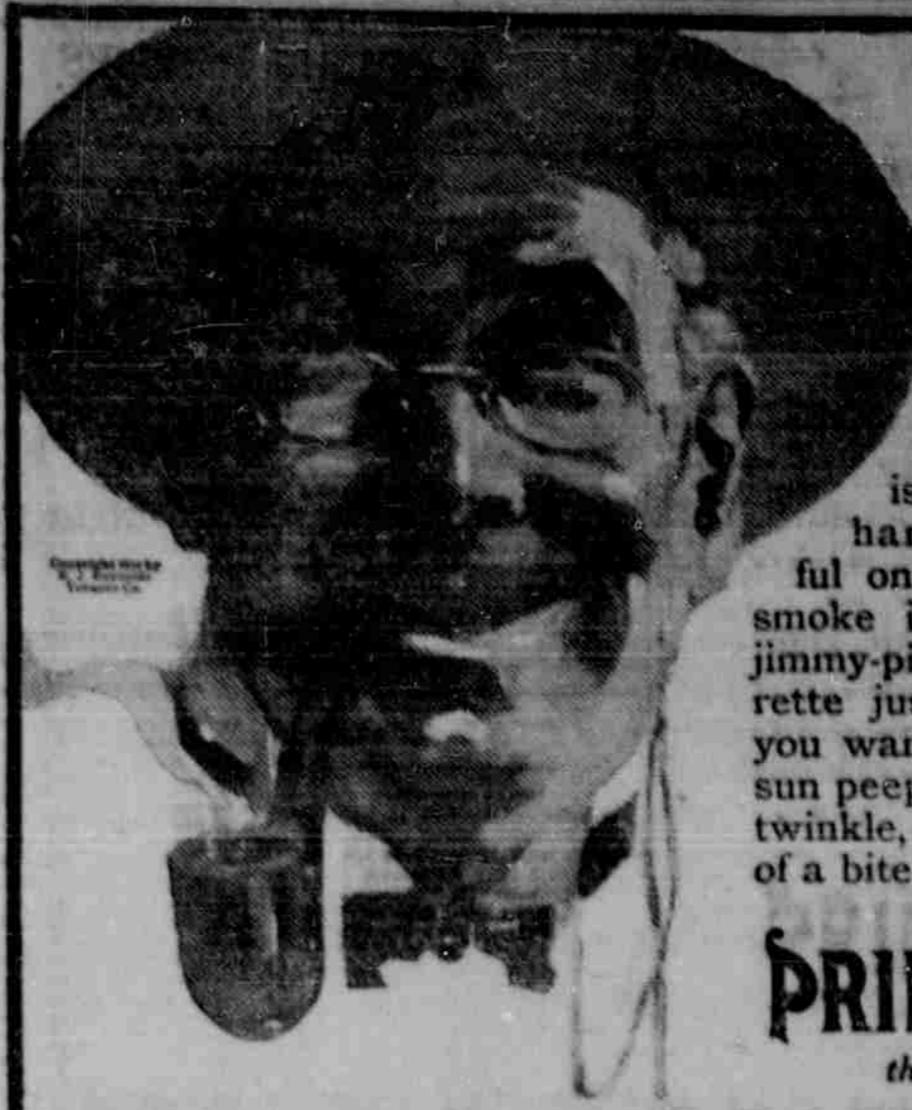

In addition to making the map of the route, the player must also make a map of the states visited, so as to show the distance and time spent at each place.

The state where the player ends his trip will be the winner of the grand prize of \$1000.

Those who are interested will be allowed to play the TRAVELGAME, full details and instructions to be found on the same page with the chart.

Players will need paper charts and pens and an informed friend of the Caller office to help. On the chart, the names of the cities and towns, and the names of the roads which may be used for their pleasure.

The TRAVELGAME chart is an exact tracing map published by the L. Palmer Company of New York. The

P. A. Takes the Razoo Out of the Jimmy Pipe

The one reason why P. A. has so many tried and trusty friends is because it's so gosh-

hanged tasty and peaceful on the tongue. You can smoke it packed in your old jimmy-pipe or home-made cigarette just as fast and hard as you want to, from the time the sun peeps out till the little stars twinkle, and there's nary a trace of a bite or sting.

PRINCE ALBERT
